

Woo Hon Fai Hall Community Open House

Wednesday, April 25, 2018

6:30 p.m. – 8:00 p.m.

Unit 1, All Purpose Room L40

2650 Durant Avenue, Berkeley

UC Berkeley invites our neighbors to a community open house to share proposed project details for a new **BioEnginuity Hub** at Woo Hon Fai Hall. Hear how the life sciences are one of California's strongest economic engines, and why enhancing UC Berkeley's standing in the biotech and life sciences arena is critical to the future of the university.

The **BioEnginuity Hub** will thoughtfully preserve a National Register building, improve connectivity to the campus park through a new one-story glass-enclosed addition, and transform a seismically-deficient structure into a state-of-the-art life science incubator with faculty and student laboratories for start-up research.

Representatives from UC Berkeley and the project architects will be on-hand to engage in meaningful dialog with the community about this proposed project. Light refreshments will be served.

We look forward to welcoming you.
